ATTORNEYS AT LAW

Environmental Sustainability Mission Statement

It is in the best interests of Petros & White and society as a whole to move along the path to sustainability and environmental responsibility. To that end, we will strive to achieve the following vision of performance, publicly communicate this commitment, and periodically report our progress and challenges in fulfilling it.

1. Environmental Responsibility and the Wise Management and Use of Natural Resources

a. *Resource and Energy Conservation.* We will conserve our use of natural resources and energy to the extent practicable.

b. *Waste Management.* We will reduce to the extent practicable the quantity and degree of hazard of the wastes we generate from our operations, and handle them in a safe, legal, and responsible way to minimize their environmental effects.

c. *Pollution Prevention.* We will reduce, to the extent practicable, the direct and indirect emissions of greenhouse gases and other harmful air pollutants from our operations and travel.

2. Awareness and Advice

a. *Attorneys and Staff.* We will help raise the awareness of our attorneys and staff about sustainability issues in our legal practice.

b. *Clients.* We will be prepared to advise our clients about the legal and practical issues associated with sustainability that may affect their businesses and operations.
